EXPERIENCE

Web Developer - Seasonal work

Mar 2024 — Nov 2025

LittleBig Founders - Skopje

- Worked as part of a 5-member development team, contributing to both frontend and backend features.
- Implemented responsive and reusable UI components using React, ensuring a consistent and user-friendly experience across devices.
- Developed API endpoints and business logic using NestJS, supporting core application functionality and data flow.
- Integrated PostgreSQL for reliable data storage and management, ensuring performance and data integrity.
- Utilized Strapi as a headless CMS to enable dynamic content management and easy updates by non-technical users

HVAC technician / sales tech

Oct 2021 — Oct 2024

Millers Heating & Cooling - Chesapeake, VA

- Performed on-site system inspections and identified performance or efficiency issues. I managed service documentation, invoices, and customer records, as well as preparing and presenting service estimates, quotes, and proposals. Closed sales for repairs, upgrades, and new HVAC installations.

Maintenance Engineering

Apr 2018 — Oct 2021

Shamin Hotels - Virginia Beach, Virginia

LANGUAGES

English					
Macedonian					
Serbian					

- Started as a maintenance technician and moved towards a supervisor/manager role towards the end. I supervised and coordinated daily activities of the maintenance team, as well as ensuring timely resolution of maintenance issues. I trained and onboarded new maintenance staff and managed preventive maintenance schedules to reduce breakdowns.

EDUCATION

Ss. Cyril and Methodius University2014 — 2017

Skopje Special Education and Rehabilitation

Avenga Academy - Programming2024 — 2025

Skopje | FULL STACK DEVELOPER

- I completed Full Stack Development program where I gained hands-on experience in building modern web applications and gaining expertise across both frontend and backend technologies. I developed responsive and user-friendly interface using HTML5, CSS3, JavaScript, TypeScript, React and Angular. I also gained experience with Figma, translating design concepts into functional UI and enhancing UX with animations and transitions using Framer Motion. Built different scalable backend applications and RESTful APIs using Node.js, NestJS and Express.js. I managed data using PostgreSQL, and MongoDB through TypeORM. Using Postman I designed and tested APIs, in order to insure reliability and performance, as well as GitHub for version control and collaboration

CERTIFICATIONS AND LICENSES

CPD Certification for Programming
